Profile

Software Engineer with experience building scalable web and mobile applications using modern JavaScript technologies. Skilled in React, Angular, Next.js, React Native and Node.js, with strong knowledge of TypeScript and modern development practices. Experienced in developing high-performance applications, writing unit tests, and collaborating in agile teams to deliver reliable digital products.

Work Experience

Software Engineer – Doji, São Paulo, Brazil (November 2025 – May 2026)

- Developed the end-to-end Trade-in ecosystem focused on evaluation and resale workflow for mobile devices.
- Built the core Grading system using Next.js implementing complex logic for device condition assessment and real-time pricing.
- Developed a React Native mobile application to execute automated functional tests to verify device integrity.
- Integrated web and mobile platforms to optimize reverse logistics ensuring data consistency across the trade-in lifecycle.

Software Engineer – iFood, São Paulo, Brazil (April 2022 – November 2025)

- Worked at the largest food-tech and online delivery company in Latin America.
- Developed a React web application to calculate delivery service parameters including optimal driver selection and estimated delivery time.
- Implemented unit tests using React Testing Library.

Software Engineer – Wiz Solutions, Brasília, Brazil (February 2020 – April 2022)

- Developed Angular web applications for security service management.
- Built React applications allowing companies to manage security hiring and operations.
- Implemented unit tests using Karma and Jasmine.

Software Engineer – Smart Performance, São Paulo, Brazil (March 2021 – November 2021)

- Developed Angular applications to manage sales and employees.
- Designed UI/UX prototypes using Figma.
- Coordinated front-end development activities.

IT Assistant – Bilin Technology, Brazil (May 2020 – February 2021)

- Developed JavaScript web applications for sales management.
- Provided client technical support.

Software Engineer – National Fund for the Development of Education (September 2019 – January 2020)

- Developed a web application using HTML and CSS to distribute education news to schools.

Education

Centro Universitário União das Américas Descomplica – Analysis and Systems Development, Information Technology (Oct 2022 – Apr 2025)
